

Business Intelligence Meeting

Creating a wealth of
information... and know edge

Outline of Presentation:

Presentation of “Tourist Profile Year Report 2004”

- Main results and trends - Visitor Survey 1996 - 2004
- Repeat Visitors and trends
- Source of information used before coming to Aruba
- Satisfaction rates of the visitors
- Expenditures of the visitors and trends
- Hotel statistics and trends
- Stay-over Visitors, Visitor Nights
- Cruise visitors

Tourist Profile 2004

Tourist Profile contains:

- Highlights
(A very short analysis)
- Administrative Data
(Stayover visitors, visitor nights, cruise visitors, Airport traffic and landings, etc.)
- Survey Results
(Visitors characteristics, profile, behavior, expenditures, satisfaction rates, likes and dislikes)
- Hotel Statistics
- International Data

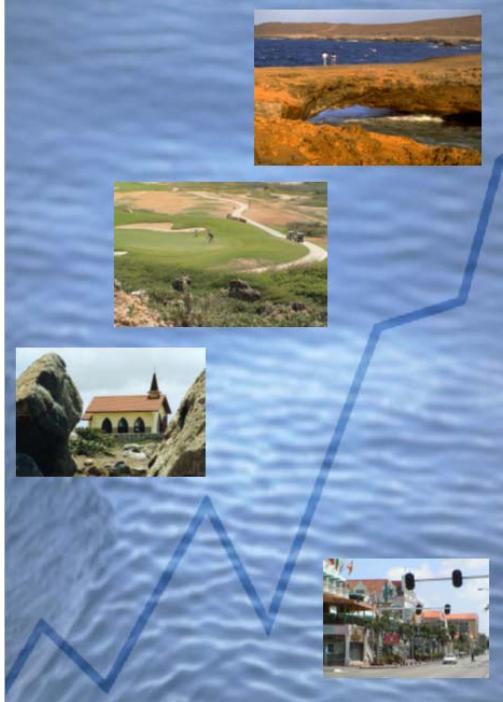

Tourist Profile 2004

TOURIST PROFILE YEAR REPORT 2004

Volume IV - Year Report 2004

April 2005

I. Highlights

Tourism has assumed considerable importance in many countries and regions and its role in economic development have become particularly significant through its potential to increase governments' revenues and stimulate investment.

The goal of this publication is to measure the economic benefit of tourism, primarily by governments, as well as a means for public policymakers and the private sector to gain a better perspective of tourism's overall economic impact. It also provides a strategic tool to better formulate their marketing and development plan.

The following pages contain tables and graphs with comparisons and general elements of some important indicators. They give a general view of how tourism developed in the year 2004 compared to the year 2003, and it also compares year figures in some cases from 1997 until 2004.

An important indicator is the estimated total tourism expenditure which indicates all travel related expenditures made by stay-over visitors, before, during, and immediately after a trip (refer to methodology for further explanations).

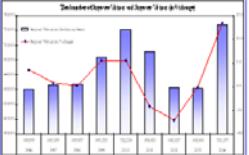

The combination of table and graphs present the estimated total tourism expenditure in every quarter starting from the years 1997 until 2004. It also gives quarterly percentage changes and quarter to quarter comparisons.

Besides estimating total tourism expenditure, tourism expenditure that is planned by tourists is also used as an indicator, which is also illustrated in a combination of table and graphs. This indicator gives the amount of money stayed over visitors left behind during their stay in Aruba.

The following table presents the different main tourism indicators from the year 2000 until 2004. The data presented in this table are related to the visitors, stay-over visitors as well as cruise passengers, the duration of their stay in Aruba, the expenditures that they made in US dollars, and hotel related statistics as occupancy in percentage, average daily rate and revenue per available room both in US dollars.

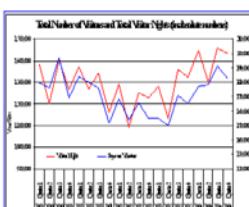

Main Economic Indicators	2000	2001	2002	2003	2004
Total expenditure	70,204	69,468	64,627	64,796	50,017
Total visitor nights	20,250	19,645	17,423	16,720	10,200
Total visitors	1,000	1,000	1,000	1,000	1,000
Total number of visitors staying in Aruba	1,241,8	1,244,8	1,262,8	1,287,8	1,099,8
Average length of stay	7,7	7,9	7,6	7,3	8,1
(Following numbers are in US Dollars)					
Arrivals daily expenditure in Aruba	164,2	167,7	155,4	160,0	122,0
Arrivals expenditure in Aruba	1,241,8	1,244,8	1,262,8	1,287,8	1,099,8
Arrivals average daily rate (ADR)	102,000	104,200	104,200	104,200	104,200
Arrivals average room rate (ARR)	93,005	96,005	96,005	94,005	83,005
Revenue per Available Room (RAR)	71,04	72,26	68,78	69,99	51,04

The following graph presents the total number of stayover visitors and visitor nights in absolute figures from the years 1996 until 2004, together with their respective percentage change over 4 years. In the year 2004, Aruba experienced a growth of 13.6% in the number of stayover visitors after experiencing a decline in 2003 and after experiencing declines in 2002 and 2001. The total number of visitor nights also increased significantly with 10.6% in 2004 which makes it the second consecutive increase after two consecutive years of decreases in 2002 and 2001.

Several other graphs are presented in this section in order to show significant patterns (trends) in the tourism industry over the last years.

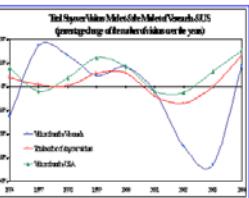

The graph below presents the number of stayover visitors and the number of visitor nights by quarter in absolute numbers. Seasonal patterns are very noticeable in this graph.

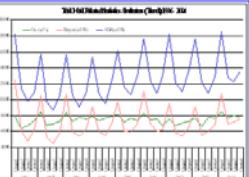

The graph below shows the market share of the visitors from the U.S. and the visitors from Venezuela to Aruba. From this graph can be concluded that Aruba is not only very dependent on the U.S. market, but that the share of the U.S. market is decreasing while the share of Venezuela is increasing. When the market share of the U.S. market decreases, the market share of the market of Venezuela increases and the other way around. In 2004 the market of Venezuela increased with 8.6% compared to 2003, and had a market share of 8.1%. The U.S. market increased with 15.2% in 2004 and had a market share of 73.5%.

The next graph shows the relative change of the total stayover visitors market, the U.S. and the market of the visitors from Venezuela to Aruba. Notable is that in 2004 the total visitors' market, the U.S. and the Venezuelan market experienced growth, while at the same time again the market of Aruba decreased. The market of Venezuela finally experienced an increase after 3 consecutive decreases. Despite this increase, still the market of Venezuela did not reach the number of visitors that Aruba received in the year 2000. Aruba increased around 112,000 visitors from Venezuela in 2004, while 59,000 in 2003. The total number of visitors from the U.S. and Venezuela alone stands for 81.6% of the total visitors market to Aruba.

Other indicators that can be observed in the graph below are the occupancy rate, the average daily rate (ADR) and the revenue per available room (RAR). As can be seen from this graph, there are very regular seasonal patterns. While occupancy leads a less steep trend, same cannot be said for the ADR and RAR. In contrast to Occupancy, Revpar and RAR show a more irregular pattern. What can be observed is that ADR and Revpar have very similar tendency, with the only difference that ADR have a higher level. The difference in level between ADR and Revpar is logical because ADR is based on the average daily rate, while Revpar is based on the total available room nights. All the three hotel related indicator experienced increase in 2004. Occupancy and ADR increased almost at the same rate, 3.4% and 3.3% respectively. Revpar, on the other hand, increased remarkably with 13.9% in 2004.

TYPE

A. Characteristics of the visitor

A1 What was the main purpose of your visit to Aruba?

- Vacation Business & Leisure
- Honeymoon Business Only / Convention / Conference
- Incentive / Award Wedding
- Visit Friend / Relative
- Golf (Write in block letters)
- Other —————— Specify: []

A2 What is your place of residence? (Please check only one!)

- United States —→ [] —→ [] State Code: [] Zip Code: []
- Venezuela
- The Netherlands
- Brazil (Write in block letters)
- Netherlands Antilles —→ Island: []
- Canada
- Colombia (Write in block letters)
- Other —————— Country: []

A3 How many times have you been to Aruba?

- First time 2-5 times 6 times and up

A4a Have you ever been to Aruba by cruise?

- Yes No

+

A4b Have you visited the Caribbean prior to this visit?

- Yes —→ *(Go to question A4a)* No —→ *(Go to question B10)*

A4ba If yes, mention the last 2 (two) Caribbean destinations:

- 1 [] (Write in block letters!)
- 2 [] (Write in block letters!)

A4c Which other Caribbean island would you like to visit?

- []

+

PLEASE CONTINUE ON THE OTHER SIDE

A10 What is your occupation?																																											
<input type="checkbox"/> Retired <input type="checkbox"/> House wife <input type="checkbox"/> Student + Other																																											
B10 GRAND TOTAL: (A) Pre-Trip - US\$ (B) During Trip - US\$																																											
+ Accommodation (incl. meals & drinks at the hotel) Food & Beverage (consumed outside hotel) Groceries, sundries (purchased in stores) Entertainment/Recreation Taxi Car rental Public Transportation Tax Free Shopping Shopping Casino's Internet / Telephone Other Specify: []																																											
B. Expenditure of the Visitor																																											
B4a How did you book your trip? <ul style="list-style-type: none"> <input type="checkbox"/> On-line (internet) <input type="checkbox"/> Travel agency <input type="checkbox"/> Tour operator <input type="checkbox"/> Charter operator <input type="checkbox"/> Other Specify: [] 																																											
B1 What type of flight did you use? <ul style="list-style-type: none"> <input type="checkbox"/> Charter <input type="checkbox"/> Scheduled 																																											
B3 Did you travel on a pre-paid package? Go to question A1a <ul style="list-style-type: none"> <input type="checkbox"/> Yes —→ [] <input type="checkbox"/> No —→ [] 																																											
B5 What was the total cost of the pre-paid package? US\$: [] (In US\$ please)																																											
B6 Which of the following did the pre-paid package include: <ul style="list-style-type: none"> <input type="checkbox"/> Air ticket <input type="checkbox"/> Accommodation <input type="checkbox"/> Breakfast <input type="checkbox"/> Lunch <input type="checkbox"/> Dinner <input type="checkbox"/> Beverages <input type="checkbox"/> Car <input type="checkbox"/> Excursions / Tours <input type="checkbox"/> Transportation to/from departure point abroad <input type="checkbox"/> Transportation to/from hotel 																																											
B8a Of the total amount of money spent in Aruba, could you give an indication in percentages what was the methods of payment? (Total 100%) Cash: [] % Traveller's Check: [] % Credit Card: [] % Voucher: [] %
