Appendix 3: Monthly & yearly % changes for January of 2007 and 2008	7

## Note to the Reader

The following report presents the price statistics for January 2008.

- At the end of January 2008 the Consumer price index (CPI) increased by 0.6% compared to end December 2007. The largest percentage change is for the “Housing group” index [+1.8%]. Furthermore, gasoline prices decreased by 2.4%.
- Compared to January 2007 the CPI increased by 8.1%. The largest percentage change is observed for the index of the sector “Housing group” [+16.3%].
- The period average percentage change CPI for the period January 2007-January 2008 is 6.3% which is 2.6 percentage points higher compared to the period January 2006 – January 2007.
- Utilities & gasoline which constitute 12.4% of the total basket of goods and services had an influence of 0.24 % in the end of period  $\Delta$  CPI January.

This report is divided in 4 sections. An overview of the monthly percentage changes in CPI and index per sector is given in section 1. Section 2 provides the yearly percentage changes in CPI and index per sector. The development of indexes and utilities are given in section 3. The percentage changes in CPI for the USA and Aruba are compared in section 4 followed by the appendixes.

## 1 Monthly change of the CPI

### 1.1 CPI and Inflation

The consumer price index (CPI)<sup>1</sup> of the total population of Aruba for the month of January 2008 is 133.6. This is 0.6% higher compared with the CPI of December 2007 [132.7]. An overview of the percentage change in CPI ( $\Delta$  CPI) for different periods during 2007 and 2008 is shown in Table 1. The terms percentage change in CPI and “inflation” (deflation) are considered similar and are used interchangeably. The inflation over the last 12 months (end of period inflation) is 8.1% while the inflation over a period of 24 months (period average inflation) is 6.3%.

**Table 1 Overview in  $\Delta$  CPI**

Period		2008	2007
Current Month	Dec-Jan	0.6	2.6
Last 12 Months	Jan-Jan	8.1	4.8 <sup>1</sup>
Last 24 Months	Jan-Jan	6.3	3.7 <sup>2</sup>

<sup>1</sup> End of period inflation

<sup>2</sup> Period average inflation

Figure 1 depicts the monthly  $\Delta$  CPI over a period of one year starting from January 2007, whereas the  $\Delta$  CPI for the month January for the years 1999 through 2008 is illustrated in Figure 2.

### 1.2 Changes in sector

Figure 3 provides an overview of the percentage changes for the indexes per sector for January 2008. The percentage change in index is further denoted as  $\Delta$  I. The largest  $\Delta$  I is observed for the sector “Housing group” [+1.8%] and “Transport & communication group” [-0.3%].

### 1.3 Changes in categories and subcategories

The largest  $\Delta$  I in the categories are for “Water supply” [+3.7%] and “Household supplies” [-2.7%]. The major  $\Delta$  I<sup>2</sup> in the “Transport & communication group” is observed for the category “Vehicle supplies” which decreased by 1.2%. This decrease is due to a decrease in gasoline prices [2.4%]. The main  $\Delta$  I in the sector “Food” are for the categories: “Meat, poultry, game, fish and shellfish” [+2.4%] and “Dairy products” [+2.3%]. The other categories show a change between -0.6 % and 2.1 %. In the same fashion the largest  $\Delta$  I for the sector “Clothing and footwear Group” is observed for the category “Footwear” [-0.3%].

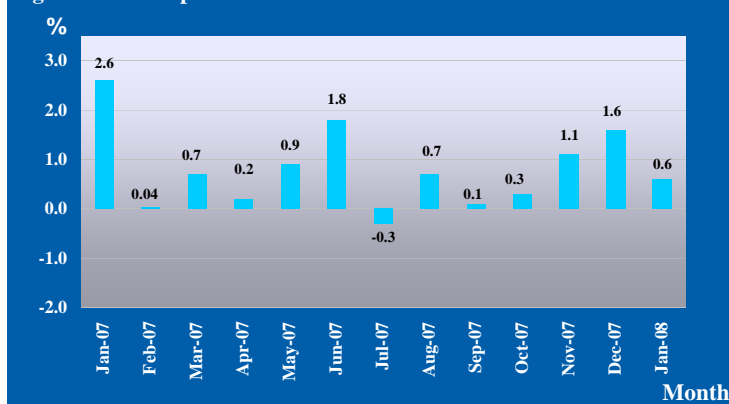

The subcategories which mainly influenced the CPI calculation due to their weight in the basket of goods and services are “Gasoline”, “Water” and “Electricity”, which had a total influence of 0.24%. Reference is made further to table 9 in Appendix 1. This table provides an overview of the indexes for

<sup>1</sup> See methodology in “Consumer Price Index January 2007”.

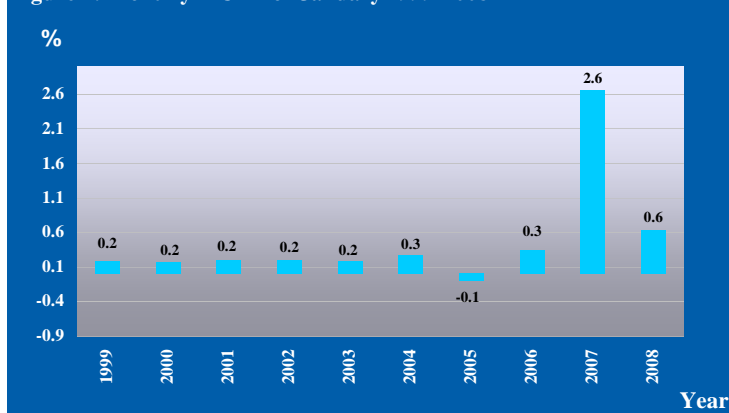

<sup>2</sup> The focus is on the four major sectors which are; Housing, Transport & Communication, Food and Clothing & footwear. Together these sectors form 68 % of the total weight of the basket of goods & services.

the months January 2007 up to and including January 2008 together with corresponding weight per sector and the monthly and the yearly percentage changes for January 2008. Moreover, the course of indexes is presented in Appendix 2. Furthermore, table 10 in Appendix 3 shows a comparison of current period with same period of the preceding year.

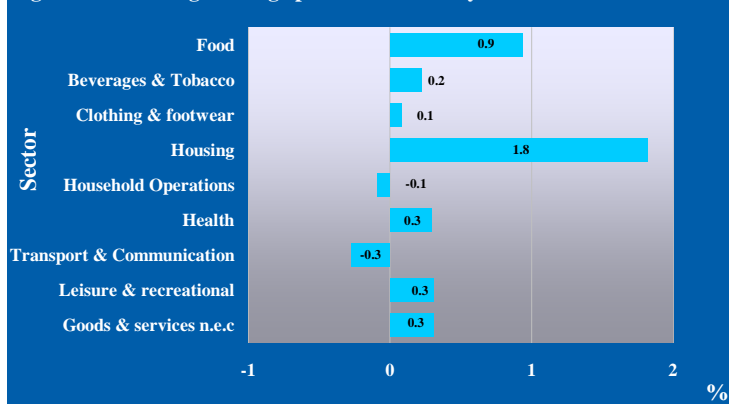

**Figure 1:  $\Delta$  CPI per Month of 2007-2008**

**Figure 2: Monthly  $\Delta$  CPI for January 1999-2008**

**Figure 3: Percentage Change per Sector January 2008**

## 2 Yearly change of the CPI

### 2.1 End of period change CPI for January 2008

The CPI for January 2007 was 123.6 and is 133.6 in January 2008 which means an increase of 8.1%. This  $\Delta$  CPI is the highest over a period of 5 years (see table 2).

**Table 2 Five year period Yearly  $\Delta$  CPI**

Period	$\Delta$ CPI
January - January	
2003-2004	2.3
2004-2005	2.4
2005-2006	4.2
2006-2007	4.8
2007-2008	8.1

Source: Central Bureau of Statistics Aruba

### 2.2 Changes in sector

An overview of the percentage change per sector over the period January 2007 – January 2008 is given in table 3. The largest  $\Delta$  I is observed for the sector “Housing” [+16.3%]. This increase is mainly caused by an increase of 35.5% in the category “Water supply” and “Domestic fuel & power [29.9%]. The second largest  $\Delta$  I during this period is observed for the sector “Food” with +7.7%. This is mainly due to an increase of 21.5% in the category “Dairy products”. An increase of 7.4% and 6.3% is observed for the sectors “Beverage & tobacco and “Transport & communication” respectively. Furthermore, all sectors show an increase in  $\Delta$  I. A comparison of the  $\Delta$  I for the years 2007 and 2008 is provided in figure 4.

**Table 3 Percentage Change for January 2007-2008**

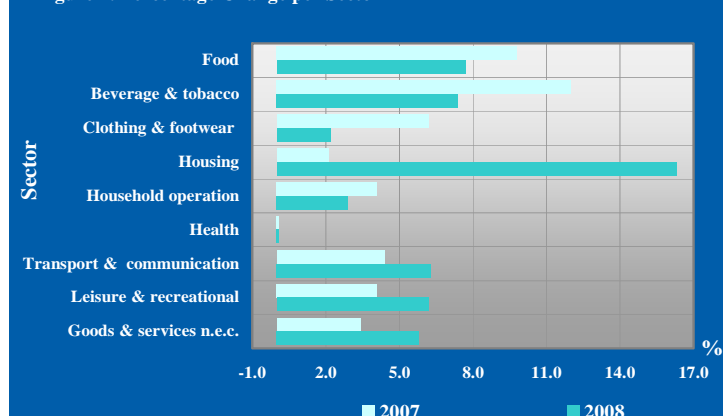

Period	% Change
Housing	16.3
Food	7.7
Beverages and Tobacco	7.4
Transport and communication	6.3
Leisure and recreational goods	6.2
Goods and services n.e.c	5.8
Household operation	2.9
Clothing and footwear	2.2
Health	0.1

Source: Central Bureau of Statistics Aruba

### 2.3 Changes in categories

The largest  $\Delta$  I in categories observed over a period of one year are “Water supply” [+35.5%] and “Home appliances & tools [-13.9%]. For an overview of yearly percentage changes per category see table 9 in Appendix 1. Moreover, the yearly changes for January 2008 compared with January 2007 are shown in table 10 in Appendix 3. The only sectors that did not show a decrease in percentage points (ppts) compared to the previous year are “Housing”, “Transport & Communication”, “Leisure & recreational group” and “Good & services n.e.c”.

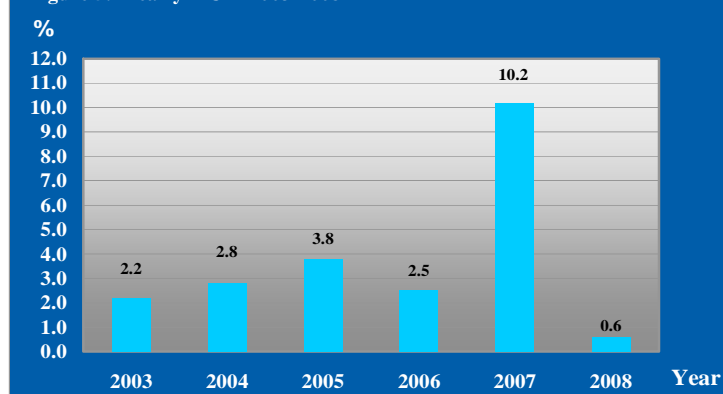

**Figure 4: Percentage Change per Sector**

### 2.4 End of year change CPI 2003-2008

The end of year change CPI for the period 2003-2008 together with the year to date  $\Delta$  CPI (Ytd  $\Delta$  CPI) for 2008 are shown in figure 5. The  $\Delta$  CPI for 2007 is calculated by comparing CPI December 2006 with CPI December 2007. At the end of each year the end of year percentage change equals the ytd  $\Delta$  CPI. The year to date  $\Delta$  CPI for January 2008 is the same as the monthly  $\Delta$  CPI for January 2008 [0.6%].

**Figure 5: Yearly  $\Delta$  CPI 2003-2008**

### 2.5 Period average change CPI for January 2008

The period average change CPI ( $\Delta$  ACPI) for January 2007 is 6.3%. Table 4 provides an overview of the  $\Delta$  ACPI for the month January for the years 2002 through 2008. Moreover, the  $\Delta$  ACPI of 2008 increased by 2.6 ppts compared to 2007.

**Table 4 Overview in  $\Delta$  ACPI**

Period	$\Delta$ ACPI
2002	2.8
2003	3.5
2004	3.5
2005	2.5
2006	3.5
2007	3.7
2008	6.3

Source: Central Bureau of Statistics Aruba

## 3 Development of indexes of main sectors and utilities

### 3.1 Indexes main sectors

The four major sectors; “Housing”, “Transport & Communication”, “Food” and “Clothing & footwear” constitute approximately 70% of the total weight of the basket of goods & services, which are observed on a monthly basis. An overview of the course of indexes for 2006-2008 is provided in figures 9-1 through 10 in appendix 2 per sector and for the CPI.

Changes in the indexes of the sectors “Housing” and “Transport & Communication” are mainly due to changes in the international oil prices and prices of utilities<sup>3</sup> during the respective months. The Development of electricity, water and gasoline prices is provided in the adjoining figures 6-1 through 6-3.

### 3.2 Electricity

The component in the electricity tariff which is sensitive to price changes is the “brandstofclausule”. Figure 6-1 shows this component of the electricity tariff in AWG per KWH per month. The “brandstofclausule” component of the electricity tariff increased in January of 2008 by 3.9%.

### 3.3 Water

The price of water is determined in AWG for an average usage (water consumption) of 20 m<sup>3</sup>. Figure 6-2 provides an overview of the course of changes in water tariffs for the period 2006 through 2008. The water price for an average consumption of 20 m<sup>3</sup> increased by 3.7% in January 2008.

### 3.4 Gasoline

Price of gasoline includes BBO since January 1<sup>st</sup> 2007. For the months May upto and including January 2008 the government of Aruba absorbed a part of the increase in gasoline prices by reducing the excise tariff<sup>4</sup> on gasoline by Awg 0.10. The retail price of gasoline was 216.1 cents per liter in December 2007 and is 210.91 cents per liter in January 2008, which means a decrease of 2.4% in January for gasoline price.

Figure 6-1: Electricity in Avg. Over 2006-2008

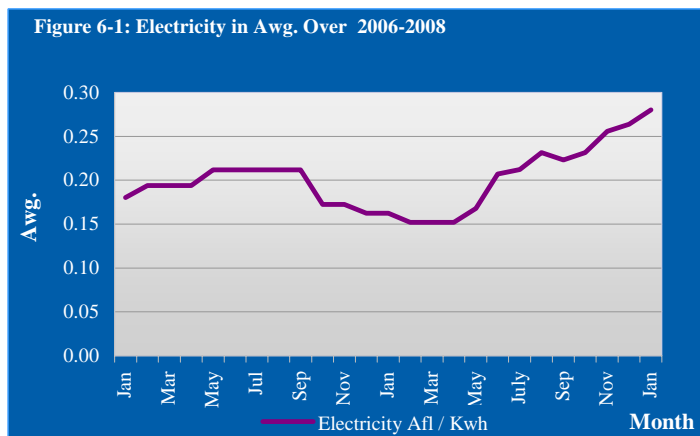

Figure 6-2 Water Price in Avg. over 2006-2008

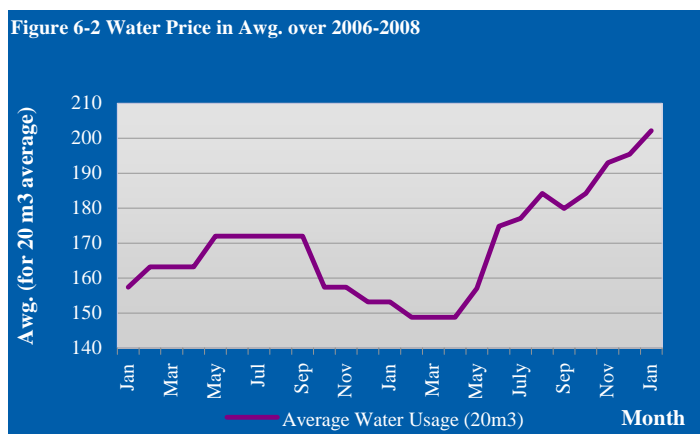

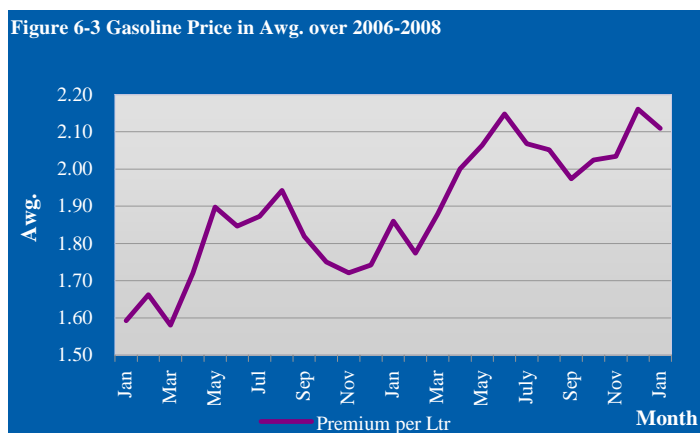

Figure 6-3 Gasoline Price in Avg. over 2006-2008

<sup>3</sup> In this case Water and electricity are considered utilities. The price of utilities is also dependent on international prices of oil.

<sup>4</sup> The excise tariff for diesel was reduced with AWG 0.05.

## 4 Percentage change CPI of our major trading partners

Table 5 provides an overview of the  $\Delta$  CPI of Aruba's major trading partners starting from January 2007. In January 2008 the  $\Delta$  CPI of the Netherlands increased by 0.3%. A 0.4% change is observed for the USA. The  $\Delta$  CPI of Curaçao for January 2008 is 0.7%. The percentage changes for USA provided in table 5 are seasonally adjusted.

**Table 5: Monthly  $\Delta$  CPI 2007-2008 per Country**

Period	Aruba	USA	Curaçao	Netherlands
January	2.6	0.2	0.4	0.1
February	0.04	0.4	0.1	0.5
March	0.7	0.6	0.2	1.1
April	0.2	0.4	0.3	0.5
May	0.9	0.7	0.2	0.1
June	1.8	0.2	0.3	-0.4
July	-0.3	0.1	0.3	-0.5
August	0.7	-0.1	0.5	0.2
September	0.1	0.3	0.2	0.6
October	0.3	0.3	0.2	0.0

December	1.6	0.3	0.3	-0.4
January	0.6	0.4	0.7	0.3

Source: Central Bureau of Statistics Aruba

### 4.1 Comparison of the CPI for the USA & Aruba

Up till now, the USA is considered Aruba's largest trading partner<sup>5</sup>. Table 6 provides an overview of the  $\Delta$  CPI for Aruba and the USA. Aruba's monthly  $\Delta$  CPI for January 2008 is 0.2 ppts higher than the  $\Delta$  CPI of the USA.

**Table 6 Overview in  $\Delta$  of CPI**

Period		Aruba	USA
Current Month	Dec-Jan	0.6	0.4
Last 12 Months	Jan-Jan	8.1	4.3 <sup>1</sup>
Last 24 Months	Jan-Jan	6.3	3.0 <sup>2</sup>

Source: Central Bureau of Statistics Aruba

<sup>1</sup> End of period inflation

<sup>2</sup> Period average inflation

The  $\Delta$  CPI of Aruba over the last 12 months is 3.8 ppts higher compared with USA's 12-month  $\Delta$  CPI. Similarly, the  $\Delta$  CPI over the last 24 months for Aruba is 3.3 ppts higher than the  $\Delta$  CPI USA. Furthermore, the monthly inflation for both Aruba and USA is depicted in figure 7 over a period of one year. Subsequently, an overview of the end of year  $\Delta$  CPI over the period 1998-2008 and year to date  $\Delta$  CPI is provided in table 7 and figure 8. The  $\Delta$  CPI for both Aruba and USA seem to follow the same movement during the period 1998 - 2006.

<sup>5</sup> "58% of Aruba's import by sea & air originates from the USA (Source: Trade Statistics Report, 3<sup>rd</sup> Quarter 2007).

However, a remarkable increase is observed for 2007. The latter may be due to the high international oil prices which in turn influenced the local oil prices and the gasoline prices and consequently the CPI calculation. Moreover, the introduction of the turnover tax (BBO) in 2007 may also have attributed to this large increase.

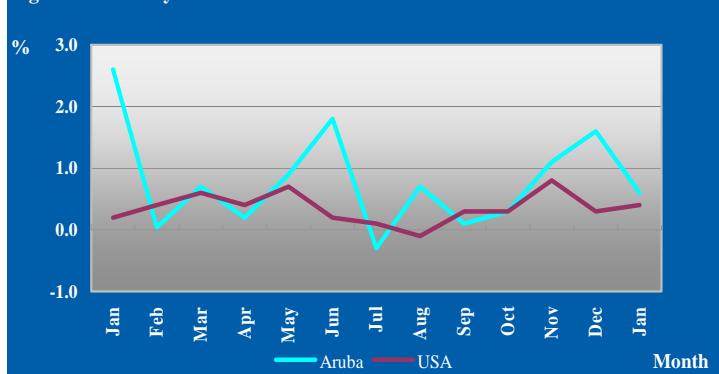

**Table 7: End of year & Year to date  $\Delta$  CPI over 1998-2008**

Period	Aruba	USA
1998	1.5	1.6
1999	3.7	2.7
