Special Remarks

The population figures, presented, are based on two sources:

- 1. The population censuses that were held in 1981, 1991, 2000 and 2010
- 2. The mutations in the population register, due to birth, death, marriage, divorce domiciliation and departure.

At the bottom of each table, the source of the data is indicated. The Population Censuses of 1981, 1991, 2000 and 2010 showed discrepancies with the population figures presented by the Registry Office. In both instances, there were more persons registered than counted during the Population Censuses. The discrepancies between the two sources are mainly due to underreporting of departure at the Population Registry Office. The Central Bureau of Statistics uses a statistical method to make corrections for the errors in the reported migration figures.

Individual figures in tables do not necessarily add to totals, because of rounding. Money figures are quoted in Aruban Florins (Afls.), unless otherwise stated. Revised figures are not marked as such.

General Trade System (since year 2000)

General Imports : the combined total of imports both for direct domestic consumption and into bonded warehouses or Free Zones.

General Exports : the combined total of national exports and re-exports of nationalized goods.

Re-exports : the outward movement of nationalized goods plus goods that move outward in their unaltered state after having been imported from bonded warehouses or Free Zones.

Special Trade System

Special Imports: the combined total of imports both for direct domestic consumption and for transformation repair. It also registers the withdrawals from bonded warehouses and/or Free Zones for domestic consumption.

Special Exports : the combined total of exports of national merchandise wholly or partially produced or manufactured in the country and the export of goods included in special imports and then exported in their unaltered state.

Temporary Import and Temporary Export (Direct Transit) : goods merely being transshipped or moving through the country for purposes of transport only.

Nominal GDP = the total market value of goods and services produced in Aruba after deducting the cost of goods and services utilized in the process of production, but before deducting allowances for the consumption of fixed capital.

Real GDP = total market value of goods and services produced by domestic factors of production annually, adjusted to remove the impact of price changes.

Consumer Price Index

The Consumer Price Index (C.P.I.) measures changes in the level of consumer prices of goods and services over time. The C.P.I. can be used amongst others to measure inflation; for indexation by the government, e.g. taxes, pensions salaries, etc.; for inflation accounting; for deflation of National Accounts, in order to arrive at constant - prices.

Statistics on the C.P.I. have been compiled for Aruba since 1958.

At present the C.B.S. compiles a general consumer price index, but also C.P.I.'s for both the lower income and higher income groups of the population.

Aruba

General Characteristics of Aruba

Location

Aruba is located at latitude 12° 30' North and longitude 70° West and lies about 32 km (19 miles) from the northern coast of Venezuela.

Aruba is 31 km (20 miles) long and 8 km (5 miles) wide, with an area of 180 km². The island is divided in 8 regions and each region is subdivided in several zones.

Population

Total end of the year population in 2012 was 105,157 while the density of the population was 584 inhabitants per km², as compared to 575 in 2011. The Aruban population is made up of a variety of nationalities.

Climate

The average and almost constant temperature is 28° C (82° F) with cooling north-east trade-wind. There are no tropical storms and hurricanes and the rainfall is very moderate.

Language

Aruba's population of over 100,000 is made up of a mixture of people who came from all over the world to this island. Dutch and Papiamentu are the official languages. English and Spanish are also widely spoken.

Religion

The majority of the people are Roman Catholic (75.7%) and 6.3% of the population are Other Christians.

Political structure

Head of State is the Queen, represented by a Governor. The island is governed by an executive council consisting of 7 Ministers who are appointed by the legislative council. This council consists of 21 elected members of Parliament. Aruba also has two Ministers Plenipotentiary abroad, one representing the island in the Council of Ministers of the Kingdom in The Hague and the other one in Washington. On January 1, 1986 Aruba obtained its 'Status Aparte' and became a separate part within the Kingdom of the Netherlands.

Currency unit

The official currency is the Aruban Florin (or AWG) which is pegged to the US Dollar at US\$ 1.00 to Afls. 1.79. The US dollar is also widely accepted on the island.
